

BLOK

PORTRAIT

3D CRYSTAL PORTRAITURE

PERMANENT . TACTILE . MEANINGFUL

BLOK is a novel portrait experience resulting in a 3D moment being locked forever into a block of optical grade crystal for you to treasure. You can also send us your favourite pictures and we'll put them inside crystal in 2D.

“your life is moving so fast, precious moments come and go...”

You're searching for something a bit different; truly meaningful gifts are hard to find. BLOK is uniquely 3D, permanent, tactile and meaningful.

“experience 3D portraiture that is enduring, meaningful and precious...”

Unlike photos, BLOK gives you all 3 dimensions in the permanence and tactile neutrality of solid crystal. The result is flattering and as meaningful as the person or image it captures.

“indulge yourself, create a unique gift, or give vouchers”

BLOK will never fade or date, requires no costly framing and won't clash with your décor. Your friends won't be able to put your unique portrait down! Contact us today to secure a no-fee sitting.
